

**LIFE SKILLS
ASSIGNMENT**

High School
Accounting
Class

In this assignment, you will calculate the monthly payment for a car you would like to purchase.

First, using the newspaper, internet, or local car catalog, find a car you would like to purchase.

Second, use the total price of the car and create a row that includes the car's price.

Next, look up the average interest rate for a car loan and create a row that includes the car's loan.

Then, assume a down payment that you could afford on a car, create a row including the percentage down |

Using the pament skills we have learned in class, create an Excel sheet that will calculate your monthly pay

Use the following example for the set-up of your assignment. This is very basic. You may use other skills w

Total Price of Car	\$0
Total Months of Loan	60
Interest Rate of Loan	60%
Total Down Payment	10.00%

Total Monthly Payment

****Be sure to use colors, lines, or any other excel abilities to make your sheet look creative, original,**

You may use the attached sheet to follow the rubric I will use to grade this assignment.

Good luck! Let me know if you need any help or have any questions!

payment you can pay.

ment.

we have learned.

neat, and organized.**

	AWESOME 3	DEVELOPING 2	BASIC 1	TOTAL POINTS	SARA	JOHN
NEATNESS	The student's work was very neat and organized.	The student's work was fairly neat and showed some organizational skills.	The student's work was not neat or organized.	3	3	2
CREATIVITY	The student used creative and innovative skills and ideas to complete the assignment.	The student was somewhat creative, but could have used more creative techniques to demonstrate their learning.	The student did not demonstrate creativity with this assignment.	3	2	1
ORIGINALITY	The student used original ideas to demonstrate their learning.	The student used a few original ideas to demonstrate their learning.	The student did not demonstrate originality with this assignment.	3	3	3
USE OF NEW SKILLS	The student demonstrated a clear use of the skills learned for this assignment.	The student demonstrated some of the new skills learned for this assignment.	The student did not demonstrate an understanding of the new skills learned from this assignment.	3	2	1
